

Crane Ropes

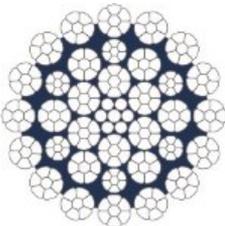

Please click on the name or image of the product that you wish to view. Please **contact us** if you need any additional information.

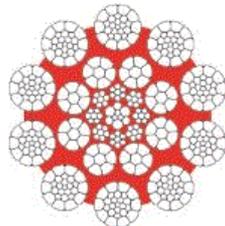

Starlift
A specialty hoist rope for tower cranes and mobile cranes as well as other applications where rotation resistant ropes are required.
[View Product Specifications](#)

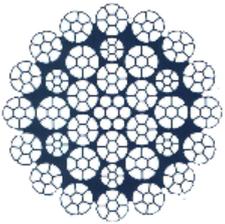

Duroplast
Boom hoist rope for mobile cranes and grabs, hoist rope for container cranes, floating cranes, portal cranes, etc. In multiple part reeving for smaller lifting heights, twin hoist systems with left and right hand ropes for greater lifting heights, when a high abrasion resistance is required, where rotation resistant ropes are not required.
[View Product Specifications](#)

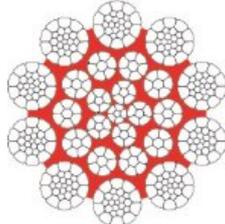

Starlift Plus
A premier hoist rope for main and auxiliary hoist applications on tower cranes, mobile cranes and crawler cranes as well as other applications where rotation resistant ropes are required. Especially suited for multiple layer spooling.
[View Product Specifications](#)

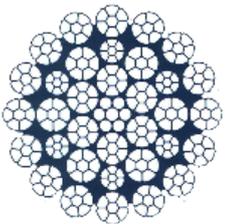

Superplast 8
Boom hoist rope for mobile cranes and grabs, hoist rope for container cranes, floating cranes, portal cranes, etc. and for various offshore applications. In multiple part reeving for smaller lifting heights, twin hoist systems with left and right hand ropes for greater lifting heights, where rotation resistant ropes are not required.
[View Product Specifications](#)

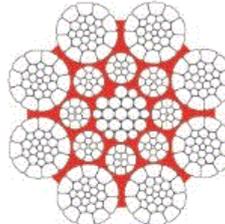

Starlift Pro
A premier hoist rope for main and auxiliary hoist applications on tower cranes, mobile cranes and crawler cranes as well as other applications where a rotation resistant rope and that next added level of strength is required. Especially suited for multiple layer spooling.
[View Product Specifications](#)

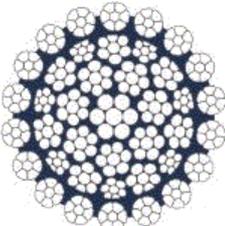

Superplast 10 MIX
Industrial cranes; process cranes in paper mills or steel mills.
[View Product Specifications](#)

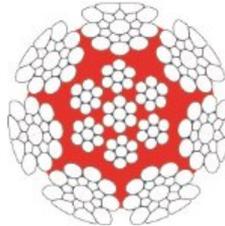

Starlift Xtra
A premier hoist rope that provides the highest level strength available for main and auxiliary hoist applications on tower cranes, mobile cranes and crawler cranes as well as other applications where rotation resistant ropes are required. Especially suited for multiple layer spooling.
[View Product Specifications](#)

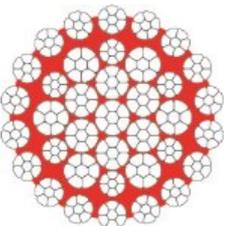

Paraplast
Hoist rope for electrical hoists and lifting devices with multiple part reeving, where a rotation resistant rope is not needed due to great lifting heights, low number of falls or not guided loads. High breaking load.
[View Product Specifications](#)

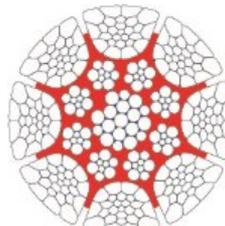

Eurolift
A premier hoist rope for mobile cranes, electrical hoists and other applications where rotation resistant ropes are required and it is especially suitable for multiple-layer spooling.
[View Product Specifications](#)

Ultrafit
Boom hoist rope for mobile cranes and grabs, hoist rope for container cranes, floating cranes, portal cranes, etc. In multiple part reeving for smaller lifting heights, twin hoist systems with left and right hand ropes for greater lifting heights, where rotation resistant ropes are not required. Highest abrasion resistance. Especially suitable for multiple layer spooling.
[View Product Specifications](#)

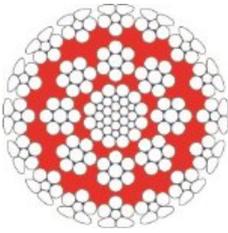

Powerplast
Hoist rope for deck cranes and offshore cranes, pull-in-riser and other applications where rotation resistant ropes are required.
[View Product Specifications](#)

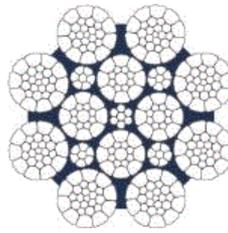

Parafit
Boom hoist rope for mobile cranes and grabs, hoist rope for container cranes, floating cranes, portal cranes, electrical hoists and lifting devices where rotation resistant ropes are not required. Highest breaking loads. Especially suitable for multiple layer spooling.
[View Product Specifications](#)

Starfit

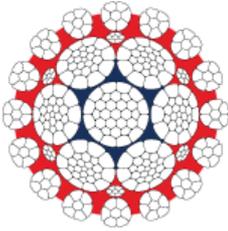

Turbolift

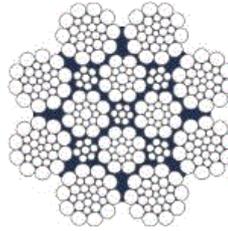

Hoist rope for deck cranes and offshore cranes and other applications where rotation resistant ropes are required. Especially suitable for multiple layer spooling.
[View Product Specifications](#)

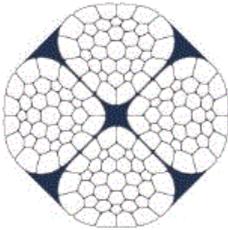

Pendant rope for tower cranes, mobile cranes, grabs, suspended structures, etc. when high breaking loads are required.
[View Product Specifications](#)

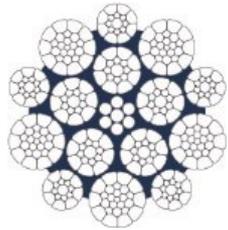

Doublefit
 Latest generation of hoist rope especially developed for all kind of ambitious lifting applications like lattice boom crawler cranes and mobile cranes, where superior rotation resistance properties are required.
[View Product Specifications](#)

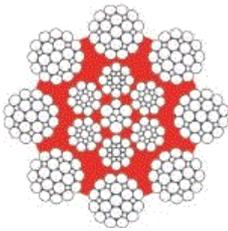

Alphalift
 Hoist rope for electrical hoists and lifting devices with multiple part reeving, twin hoist systems with left and right hand ropes where a rotation resistant rope is not required.
[View Product Specifications](#)

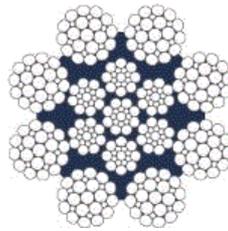

Quadrolift
 Rotation resistant hoist rope for electrical hoists with twin hoist systems and greater lifting height, combined hoist and erection rope for self-erecting cranes, where rotation resistant ropes are required.
[View Product Specifications](#)

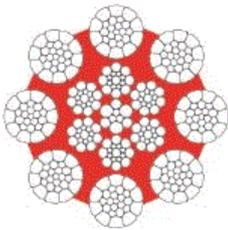

Betalift
 Hoist rope for electrical hoist and other lifting devices, where rotation resistant ropes are not required. Very flexible filler construction with an extremely high breaking load.
[View Product Specifications](#)

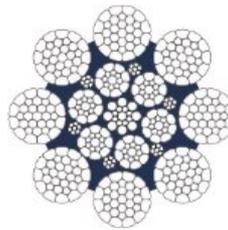

Stratoplast
 Hoist rope for container cranes, floating cranes, harbour cranes, portal cranes, steel mill cranes, etc. In multiple part reeving for smaller lifting heights, twin hoist systems with left and right hand lay ropes for greater lifting heights. Holding and closing rope for grabs, where rotation resistant ropes are not required.
[View Product Specifications](#)

Technolift
 Hoist rope for overhead cranes, preferable ladle cranes with great rope lengths. Note: Please send us a drawing of the reeving system.
[View Product Specifications](#)

Turboplast
 Boom hoist rope for mobile cranes, deck cranes and grabs, hoist rope for container cranes, floating cranes, portal cranes, steel mill cranes, etc. In multiple part reeving for smaller lifting heights, twin hoist systems with left and right hand lay ropes for greater lifting heights, riser tensioner, where rotation resistant ropes are not required.
[View Product Specifications](#)
[View Product Video](#)

Technolift Plus
 Hoist rope for overhead cranes, preferable ladle cranes with great rope lengths.
[View Product Specifications](#)
